

February 11, 2024

Dear Church supporters and Friends,

Our winter storm lasted for days - and another is due tomorrow. Well, I did it. It was hard doing outside chores - on snowshoes one day; trying to dress for cold - and it was Wednesday 7th. when I woke up with chest and teeth pains. The van arrived and took me to the hospital. Blood pressure was 150, but came down quickly. The stress was o.k. - blood tests o.k. I came home early morning. Doing well these days.

Steadily moving into a bakery, a lady eyed my car as she entered her passenger car. I knocked on her window - "Wrong Car!" They laughed. Damn vehicle. They took two pieces of literature. Leaving the hardware, a lady was about to pull away. Damn car - different car. She took my letter. Another Chrysler 200 pulled along side mine - she took a letter too... said our meeting was nice... sort of planned.

A young pharmacist wondered about the sale - he went away with some knowledge. Waiting for a smaller cart in Wal Mart a lady and 11 year old girl just turned one in, to go away with youth material. Sure glad to be aware of people, and their needs. The storm held us home for awhile... eye specialist now can see more about our Lord.

Bonnie seemed to walk better, though problem now with left arm one side - not heart related. Our three families nearby keep an eye on us. We just received a new government dental plan for seniors.

I read through my 60 year old "The Other Side of Rome" by John Wilder. Ever wonder why so many from Latin America head north. I am trying to get another copy as they are out of print. See you folks
